

THE ONLY GREEN THE MACDONALD™

Shown in Walnut Finish

When you want the most realistic course-like challenges but don't have room for a 20-foot length of a green, The MacDonald is the ideal option. The MacDonald is a special tribute to CB MacDonald, one of the great amateur golfers of all time and the architect of the famed National Golf Links. This green comes complete with 6 break stations for up to 50,000 different break combinations, and it has the ability to be elevated on both ends, so you can replicate those uphill and downhill putts that most impact your game. The MacDonald is the ultimate putting green for professional and amateur golfers who want to kick their game up a few notches.
